We are an animation and featured film studio in Thailand, founded by three people who have been working with world-class animation or film studios such as Industrial Lighting and Magic (ILM), Luma Pictures, Method Studio, and Sony Pictures. We are well known among studios in Thailand, especially in Model, Lighting, Look development and compositing part. We are specialized in asset, look development, lighting and compositing. Our founders worked in major Hollywood studios over past 10 years . Since our studio focus on lighting and look, we have invested in big renderfarm which we are able to deliver any scale of project from TV commercial to full CG feature film quality. our major achievement is that even we are a new company we are able to work with many famous studios, such as Pysop and Ntropic-USA, Polygon Pictures-Japan, Omens Studios- Singapore.

Brief company profile

The Monk Studios was founded in 2006 by Juck Somsaman a 25-year veteran of the high-end US CGI visual effects and film industry and headquartered in Bangkok, Thailand.

The Philosophy of the company is to focus on producing world-class imagery using highly skilled artists and cutting edge technology. The company produces high quality visual effects [VFX] and animations for both feature films and commercials in Asian and Western markets.

Gathering the region's most talented artists, The Monk Studios is gaining a solid reputation as a leading high-end animation and visual effects studio in South East Asia, frequently working with major international partners and clients, such as Dreamworks Animation, Industrial Light and Magic, Lucas Film, Alibaba Pictures, Mccann Erickson and Lowe WorldWide, on a variety of public and confidential projects. The studio also boasts an efficient technical infrastructure, a sophisticated pipeline, high capacity output, and qualified engineering staff.

At present, The Monk Studios is focusing on producing original content, intending to own and impel the original animation to both domestic and international markets. We are currently producing our first: own original content with Netflix and other OTT platforms.
